ENGAGED FLEET AT LONG RANGE

British Light Cruisers Chase German Destroyers in English Channel But Were Unable to Overtake Them.

(By Associated Press)
London, May 10.—A British force of light cruiser destroyers chased eleven German destroyers in the English Channel today and engaged them at long range, it was officially announced. The British fleet was unable to overtake the enemy ships.

The admiralty statement says four British destroyers chased eleven German destroyers to within range of the batteries of Zeebrugge. Our casualties are one man slightly wounded. The enemy's destroyers seemed to show the effect of being hit by our gun fire.

LOST LIFE WHEN VESSEL SANK

Steamship Sebastian Sunk While Being Towed to Port.—No Details Given.

(By Associated Press)
Newport, R. I., May 10.—The British oil motor ship Sebastian, which was under tow by an American gunboat to a New England port with fire raging in her hold, sunk today. It was reported by wireless to the radio station here. Thomas Jones, a marine gunner on the gunboat which had the Sebastian in tow, lost his life when

the vessel sank. No details as to the manner in which the accident occurred were given out and because of the strict censorship the cause of the fire is not known. Soon after the Sebastian sent out the S. O. S. on Tuesday night, a number of vessels hurried to her aid. Her crew was taken off yesterday by an American patrol boat.

NEW RAILROAD FOR MEXICO

(By Associated Press)
Mexico City, May 10.—The new railroad between Durango and Cautas will be opened for traffic early in

June. This road will cut off a long distance in traffic between Mexico City and Durango which formerly was routed via Terec. The road runs through a rich mining region and will shorten the distance from the Durango mines to the Aguas Calientes smelter of the American Smelting and Refining Company which is expected to resume operations after a long period of idleness within the next few weeks.

COL. ROOSEVELT'S PLAN TURNED DOWN

Senate Amendment Allowing Him to Raise Four Divisions For Service in France Dropped—Agreement Reached on Army Bill by Conferees

(By Associated Press)
Washington, May 10.—The conferees on the army bill have reached an agreement and the bill will be reported to both houses of congress for confirmation as soon as possible. The senate amendment permitting Colonel Roosevelt to raise four divisions for

service in France was dropped as was also the senate amendment to raise three volunteer regiments for border patrol duty. The conference committee has agreed on the age limit for selective conscription to be between the ages of 21 and 30, a compromise in the two bills,

the senate bill placing the maximum age at 27 and the house bill fixing it at 40. The senate prohibition amendment forbidding the sale of liquor at army posts was retained by the conferees and will be recommended for confirmation.

CHARGED WITH VIOLATING THE ANTI-TRUST LAW

(By Associated Press)
New York, May 10.—The trial of the five members of the News Print Paper Manufacturers association and two others charged with violating the Sherman anti-trust law, alleging price fixing, was today set by the federal court for October 8, next.

POLICE HAVE JOINED THE ARMY AND NAVY

(By Associated Press)
London, May 10.—Ten thousand members of the police in England have joined the army and navy. This has reduced the actual strength of the

force to 28,802, many of whom will soon be taken into the army. Special constables have to a large extent, made up for the reduced numbers of regular police, 121,908 having volunteered for police duty. This large number includes constables for special occasions such as Zeppelin raids, coast bombardments and other emergencies.

BRITISH ARE TIGHTENING THE "NIPPERS"

While the official reports received throw little light on the situation about Fresno, the scene of the stiff battle between the British and the French armies, they record some important actions on the other parts of the battle front. The report from London announced that the British forces have advanced south of the Souchez river further pushing back the German lines and tightening the "nippers" which they are applying there on the German defense important points. Further inroads are also reported having been made near Bullecourt on the Hindenburg line. The French likewise have made no new general attacks against the German positions but they, like the British have delivered here and there several thrusts which gained them valuable headway in forcing the Germans back and in preparation for the next great push.

FAMILY TRAGEDY IN KENTUCKY

(By Associated Press)
Elkton, Ky., May 10.—Frank Millen, a young farmer, killed his father, his mother, his brother and his brother's wife with an axe, and then hanged himself. Constant illness is thought to have unbalanced the young man's mind.

Spring may be denied to some things, but there comes a time when buds must unfold. The push from inside is too strong to resist altogether. It will be the same with all things; even if there is no warm weather at all, the first of June will see the green and flowery world about the same as it was last year, and the year before that, and so on back to the days when nature was a baby.

WILL TAKE TWO YEARS TO PUT MINES IN SHAPE

(By Associated Press)
Paris, May 10.—It will take nearly two years to put the coal fields in the neighborhood of Lens into working condition again after the destruction effected by the Germans there, according to Carlos Devlan, head of one of the large coal mining companies of that district. "The success of the British around Lens is of great value to France," he said today. "We have been waiting the return of this district for a long time and have prepared all our measures so that there shall be no more delay than necessary. The mines of Lens produce 4,000,000 tons of coal and 1,000,000 tons of coke yearly, but it is doubtful if this production can be reached again within two years."

FOUR OF CREW OF TUG HOGAN WERE DROWNED

(By Associated Press)
New Haven, Conn., May 10.—Four members of the crew of the tug James H. Hogan were drowned today when the Hogan capsized in the harbor off South West Light. The Hogan's string of barges broke away and the tug was returning to pick it up when the accident occurred.

UNEARTH PLOT TO KILL EX-PREMIER

(By Associated Press)
London, May 10.—An official dispatch received from Salonika says a conspiracy has been discovered for the assassination of ex-Premier Venizelos. Nine men who were arrested say they were acting for a secret committee formed in Athens of military officers and citizens.

DEMAND THAT GOVERNMENT TAKE ACTION

(By Associated Press)
Buenos Aires, May 10.—Newspapers here declare that they have positive information of the sinking of the Argentine sailing ship Orlana by a German submarine. The papers say that the incident is far worse than was the sinking of the steamship Monte Protegido and demand that the government take some action at once in protest.

PAVING CONTRACT IS AWARDED BY PUBLIC WORKS

Warren Brothers of Boston the Only Bidders—Contract Price \$60,460.70

Following the vote of the city council, the board of public works on Wednesday evening awarded the contract for the paving of Middle street, the remainder of Daniel street and the re-laying of a section of Islington street between Dover and Albany street to the Warren Brothers of Boston, which firm did the last paving in this city three years ago.

Warren Brothers will put in the same kind of paving as that on Deer and Bridge streets. They will furnish new curbing where needed and straighten up the old granite now on these streets. The street railway will be required to pave inside the car tracks and 18 inches outside the rails. It is estimated that the railroad's share of the expense will reduce the city's figure to about \$50,000.

The bid of the Warren Brothers was the only one sent to the board of public works as a result of the advertising in the local and Boston papers. They submitted a price of \$60,460.70. According to the contract, the

The contractors and the board of public works are ready to start work as soon as the railroad can renew its tracks and change the grade on Middle street.

GEN. PERSHING SUMMONED FROM BORDER

Washington, May 10.—Orders summoning Major General John J. Pershing, commander of the southern department to Washington, have aroused much speculation here. Officials have declined to give an explanation or to comment on reports that the general's visit is connected with the subject of selecting a commander for a military expedition to France.

Gen. Pershing is known to have the confidence of administration officials because of his record as commander of the punitive expedition in Mexico. Since the bulk of the regular army now is under his command, however, and since several of the big army mobilization camps are to be established in his territory, it was pointed out that his trip here might have to do with organizational work.

Several departmental commanders, including Generals Wood, Bell and Edwards have been in Washington several times within the last few days but Mr. Baker said no general conference of commanders was in prospect.

SAYS SITUATION VERY SERIOUS

Concord, May 10.—Chairman John H. Jameson of the state committee on Public Safety, yesterday mailed an urgent appeal to the chairmen of all local public safety committees to arouse the people to a keener realization of the seriousness of the war situation. Mr. Jameson, who has just returned from Washington, says that the officials there recognize the true situation are fighting on a war lasting two, perhaps even three years.

"Germany is far from being beaten," said Chairman Jameson today. "If she is not beaten by our allies and ourselves on the battlefields of Europe we will have to attempt to beat her when she sends an army and a navy against our own country. We should not minimize the tremendous needs of the moment."

He calls attention to the world's shortage of food and urges that everybody do his share in planting, and also in economizing in the home, on the table, in the bath, in fact everywhere. Mr. Jameson points out to the local

food committees that they have an opportunity for a great patriotic service. He also reminds the local committees that they should impress upon all unmarried men of the military age, fixed by the law which congress will pass within a few days, that they must register on the day prescribed or they will be liable to imprisonment. This fact should be brought home to all men called upon by the law, so that they may not place themselves liable to the penalty through ignorance of the law, which in court of justice is no excuse.

Today the manufacturers of the state will come here to confer with Governor Keyes and Chairman Jameson on questions of labor distribution this summer. The governor has some proposals to make to the manufacturers in relation to releasing factory workers for farm help during the busiest periods of the summer.

VAWTER IS SAVED BY "UNWRITTEN LAW"

Christiansburg, Va., May 10.—Charles R. Vawter, former professor of physics at Virginia Polytechnic Institute, was declared not guilty last night of the murder of Stockton Bell, Jr., a wealthy young society man and sportsman, whom he shot to death in the Vawter home early on the morning of March 13. The jury was out two and a half hours, but according to one jurymen, only one ballot was taken. Vawter's defense had been based on the unwritten law and self defense.

The trial was one of the most sensational in the history of Virginia. Mrs. Vawter took the stand in defense of her husband, declaring she was willing to bare her life to save him.

GERMANS REACH HOME AFTER 124 DAYS

(By Associated Press.)

Amsterdam, May 10.—Twenty-eight Germans of military age managed to reach Germany from Chile not long ago after a remarkable voyage in a small sailing ship, according to the Cologne Gazette. The Germans bought the old Chilean 450-ton sailing vessel Tinto, fitted it with a wireless installation, and voyaged by the way of the Shetlands and Norway. The ship was sold in Copenhagen, and the trip proceeded to Germany. The journey occupied 124 days.

COUNTY DRAFT BOARDS TO MEET

Concord, May 10.—Governor Keyes has called a meeting for Friday morning of the county drafting boards, which will be created under the military law under consideration by congress. The present draft of the law provides that the sheriffs, clerks, of superior court and a physician of each county shall serve and Governor Keyes thought it would be well to have the boards meet now, so they could be ready to proceed when the law is finally enacted. He has received instructions from Washington as to the duties of the boards and will outline to the members he has invited to come here, Friday, to the State house.

This phase of the proposed law is not in issue in the committee of conference, so it is assumed there will be no change. Under the terms of the law, these county boards will have charge of the registration of all men of military age, who will be ordered to appear before the boards at convenient places designated. Cities of more than 50,000 population will have special drafting boards, appointed by the mayors. Manchester is the only city in New Hampshire which will come under this provision. The other cities will come under the county boards.

TOWN AROUSED OVER SERMON

Exeter, May 10.—Rev. P. S. Saller, pastor of the Federated church of Stratham, by a pacifist sermon, has so aroused the church members and citizens that a step has been taken to ask the committee of the church for his resignation.

Last evening the Winnett Grange passed resolutions to the effect that a committee be appointed to confer with the church committee, and recently the Junior order of United American Mechanics, which is one of the leading fraternal organizations of that town, passed like resolutions. Mr. Saller, it is alleged, made some plain statements against the youth of the town, enlisted in the service, and it is also stated that he tore from the church a poster soliciting recruits for the army.

As yet no action has been taken by the church committee, which is composed of three members from each of the churches, which became federated into one a few years ago, engaged Mr. Saller as their pastor. He came to that town from Tisbury, Mass.

FLOODS CLAIM MANY VICTIMS IN RUSSIA

(By Associated Press.)

Odesa, Russia, May 10.—Floods in southern Russia have claimed more victims than the revolution. They followed the heavy snowfall that canopied this part of the country soon after the recent revolution. The floods interrupted railway traffic, especially between here and the new Russian capital at Jassy and some houses were swept from their foundations and a number of persons were drowned. The rising waters caused more excitement in these parts than the revolution.

"UNCLE JOE" CANNON COMING TO SPEAK IN PORTSMOUTH

Manchester, May 9.—From Burroughs Headquarters on Elm street it was learned today that effective plans are being mapped out for a speaking campaign in the First District. There will be two big meetings in Manchester, in the Academy, on Lowell street, on Friday, the eighteenth and on Saturday, the twenty-sixth of May.

Dates for rallies have also been fixed for the 17th at Portsmouth, 18th at Tilton, 21st in ward 6, Manchester, 22d at Farmington, 23d at Rochester, 24th at Dover, Pittsfield, Laconia and Conway, 25th at Wolfeboro, 26th at Raymond, and Derry, and the 28th at Portsmouth and Tilton. There will also be local rallies here in the various wards of the city.

It is expected that many men of national reputation will be present at these big rallies. The prospects are that at the Manchester meetings the Hon. Joseph C. Cannon of Illinois, a long political associate of the late Congressman Sullivan and the veteran of public service of any man in the country, will be one of the speakers. Other speakers at Manchester and other meetings will include: Hon. James E. Watson, United States senator from Indiana, one of the most effective campaign orators on the stump in this country; Senator William E. Dorr of Idaho, who has wide reputation as a political speaker; Senator Harding of Ohio, one of the most

gifted men of the present time; Hon. William E. Hodenburg of Illinois; and Hon. Philip Campbell of Kansas, who has been a New Hampshire visitor politically before, and who made a brilliant speech at the Republican convention in Concord a few years since. Besides these there will probably be several other men of national reputation whose names will be announced later.

M'ADOO WARNS STATE BANKS

Washington, May 9.—The financial resources of the United States may not be able to meet the demands of war unless state banks become members of the federal reserve system, fortifying the country to meet the shock, said Secretary of the Treasury McAdoo in a warning today. He wired the American Bankers' Association:

"The time may come when the financial resources of the country will not be commensurate with the national purpose if the nation retains half state banks and half national banks in this organization."

McAdoo urged the association to exert its influence to induce the state banks to join the federal system as a war measure.

WILSON'S MUSIC SCORED HIGH AT FIRST CONCERT

NOVELTY DANCE ORCHESTRA PRESENTED FINE CONCERT AND DANCE MUSIC PROGRAM LAST EVENING

That novelty dance orchestra can play pleasing dancing and concert programs of such variety as to please the widely different tastes of all music lovers was proved last evening when Wilson's Orchestra of Turner's Falls, Mass., was heard for the first time in Portsmouth. The orchestra comprised fifteen pieces and appeared at Freegan's Hall. When they opened their excellent concert program at 8.00 o'clock at least 400 people occupied seats in the balcony and each number of the program, which included several fine solos and novelties, was heartily applauded. The concert program was concluded with the "Star Spangled Banner" audience and musicians standing.

Among the most highly appreciated number was the string quartet rendition of Nevin's "The Hosts" and Mr. Lindskog's concert solo, "Love Is the Light of the World."

Following the concert the orchestra immediately started its dance program and more than 200 couples enjoyed dancing from 8.00 o'clock until 1.00 when the evening was brought to a close. Many remained in the balcony until the playing of the final number and all spoke highly of the excellence of the music. It is safe to estimate that on their next appearance here the number of the audience will be doubled. In addition to the large number of Portsmouth people attending guests were present from Exeter, Haverhill, Rochester and other cities.

The following concert program was rendered under the direction of H. Burton Harboe, conductor:

ARMED LINER FIRED UPON SUBMARINE

(By Associated Press)

New York, May 9.—An armed American liner, reaching port this afternoon fired six shots from her big guns at a German submarine off the Irish coast on May 2, the commander announced tonight. "The submarine was sighted about 5.00 o'clock in the evening and it is not known if any of the shots took effect."

When the periscope of the U-boat was sighted the vessel was swung about so as to give the gunners a fair chance at the target. She was resting on the surface as the first shot was fired but immediately sank from view. Five other shots were fired in rapid succession. As the under-water enemy disappeared from view the liner was sent on its course at full speed.

CORNS HURT TODAY?

Lift your corns or calluses off with fingers and it won't pain you one bit.

Yes! You truly can lift off every hard corn, soft corn or corn between the toes, as well as hardened calluses on bottom of feet without one bit of pain.

A genius in Cincinnati discovered freezone. It is an ether compound and tiny bottles of this magic fluid can now be had at any drug store for a few cents.

Apply several drops of this freezone upon a tender, aching corn or a callus. Instantly all soreness disappears and shortly you will find the corn or callus so shriveled and loose that you can lift it off with the fingers. You feel no pain while applying freezone or afterwards.

Just think! No more corns or calluses to torture you and they will go without causing one twinge of pain or soreness. You will call freezone the magic drug and it really is. Genuine freezone has a yellow label. Look for a yellow label.

SHIPPING PROGRAM ASSURED

(By Associated Press)

Washington, May 9.—Support of the administration's shipping program to build and purchase the great fleet of merchant ships to wage war against the German submarine is assured support by leaders of both houses of Congress. "The Shipping Board will be given \$500,000 if necessary," leaders say, to carry on their plans and more will be appropriated when it is needed.

S. S. HESPERUS SUNK AND TWO OF CREW KILLED

FINLAND-AMERICAN LINER TORPEDOED IN BRITISH CHANNEL —BOATS DRIFT ABOUT FOR TWO DAYS

Boston, May 9.—Two torpedoes fired from a German submarine sent the steamship Hesperus of the Finland-American line to the bottom on April 3, killing two members of the crew. The remainder of the crew, 21 men and three stewardesses, took to the small boats, and after two days were picked up by a Greek steamer and landed in Crete, whence, according to word received in Boston today.

The Hesperus plied between Boston and Manchester, Eng. Of late she had been in the British admiralty service and was in the English channel when torpedoed.

According to the story told by members of the crew, the first torpedo entered the engine room and exploded, killing two men. The submarine then came to the surface and was plainly seen within a short distance of the liner. It was evident to the crew the commander of the submarine intended to board the vessel and procure supplies. The sea was too rough for the undersea craft to try, however, and the submarine disappeared.

After a short time the submarine returned and fired another torpedo at the Hesperus which tore a great hole in her below the waterline. The crew of the liner took to their boats and the steamer went to the bottom.

The Hesperus was commanded by Captain K. E. Lindhoss. She was of 2331 gross tons and valued at \$100,000. Norse Ship Sunk

London, May 9.—The Norwegian steamer Kapurika, 1232 tons gross, has been sunk by a German submarine, the Norwegian foreign office announces, says a special message dispatched from Christiania today. Two men of the crew were killed.

PER CAPITA TAX FOR EACH ESTIMATED \$33

(By Associated Press)

Washington, May 9.—The war tax hits the fabric of the nation, every individual paying practically a direct tax if the bill is passed by the House and Senate as recommended by the House Ways and Means committee today. In the bill designed to raise \$1,800,000,000 of the first year's war revenue, it will be a direct tax on every man, woman and child of \$33 per capita. While this is high it is far lower than the per capita tax in the British Isles which is approximately \$80.

The bill is designed to hit every person equally, according to their means and will include among others the tax of the posts, telephones, automobiles, three auto accessories, railroad transportation, golf clubs, baseballs, bats, sporting goods of other descriptions, and practically every article in com-

The proposed raise in the rates of the post for newspapers by making zones has caused the statement that many newspapers will have to suspend publication and this will be presented at the public hearings which the Senate Finance Committee will conduct on the bill beginning tomorrow. It is expected when debate opens in the House tomorrow that many features of the bill will be bitterly opposed by both Democrats and Republicans, but it is expected by leaders of the House that the bill will be passed as recommended by the committee. It is also expected that the hearings before the Senate committee will result in the recommendation of several amendments which will be adopted by the upper House and will afterwards be submitted to the House for consideration.

War Taxation.

The tax that the government is preparing to place on large incomes as a "war measure" is nothing short of staggering. According to reports from Washington if a bill now under consideration becomes law the tax on incomes of \$1,000,000 or more will be about 47 per cent. It is true there are not many persons having an income of a million dollars a year, yet there are enough of them to materially swell the receipts at such a rate of taxation as this. The tax on incomes of \$500,000 a year will be very heavy, and, in fact, the government will be obliged to collect with a liberal hand all along the line.

The committee in charge of this business understands that Henry Ford has an income of \$35,000,000 a year, there being only one larger in the country, that of John D. Rockefeller. But in the country there are 124 persons having incomes of \$1,000,000 or more, and a large number whose incomes exceed half a million. In view of the fact that incomes of only a few thousand dollars are also to be taxed it is plain that the government will replenish its war chest substantially from the tax on incomes.

Readers of this paper are aware that its theory is that taxation should be so distributed as to rest equally on the rich and the poor, according to their means, but war is war, and in time of war the people, rich and poor, must bow as gracefully as possible to the burdens it imposes. For this reason there will probably be little fault-finding with the income tax, even on the part of those who have to bear the brunt of it. The fortunes upon which these taxes will fall have been made in this country and it is probable that few of their possessors will whine about the taxes they have to pay to uphold the rights and honor of the country.

And, while this income tax sounds large and looks big on paper, let it be remembered that the rich are not going to pay all of the taxes. The poor will also have their opportunity to contribute toward the mighty expenses that will accompany the struggle upon which the country has entered. Stamp taxes and taxation in endless other forms will reach all classes of the population and none will be permitted to forget that the country is at war.

But there should be no fault-finding on this score. Under the conditions that exist the government has the right to take men as well as money, and is preparing to do this. The burden is heavy and it must be shared by all the people. And, happily, the people are prepared to stand up like men and bear the burden that comes to them without whining.

It is reported from Maine that there was a wholesale slaughter of deer and moose by Canadians and lumbermen last winter, contrary to law, to help out the supply of provisions in this time of scarcity and high prices. Without doubt there is some truth in the report, and a continuance of the practice ought not to be permitted, though there never was a time when infringement of the law in this respect was more tempting than it is now.

Summer resorts along the Atlantic coast have been worrying over a senseless rumor that the government was to shut off the lights at night during the summer as a precaution against invaders. It is announced from Washington that nothing of the sort has been contemplated, and the resort proprietors and cottagers should now rest easier.

At least one newspaper hints that reports of war conditions may be exaggerated a little just at present in order to quicken the step of this country toward the front. Whether this is so or not, the actual conditions are bad enough and it becomes more apparent every day that the part the United States is to play in the struggle cannot be played too soon.

Running up flags is one thing and running up the price of flags is quite another. There is valid objection to the latter proceeding, which ought not to be carried beyond the bounds of reasonable profit. The people are willing to be taxed on their property and their incomes, but they do not want to be taxed on their patriotism.

Mrs. Wilson, wife of the president, is to send home by Marshal Joffre of France a choice Virginia ham as a gift to Mrs. Joffre. No station in the world today is high enough to place one beyond appreciation of such a gift.

The weather for the first week in May, 1917, should be long remembered for its "pure cussedness." It has been a blue time for the war gardeners, but there are better days coming and they cannot be far distant.

Very popular is the government's "liberty" loan, which has been bringing in about \$20,000,000 an hour. The news of this should have a sobering effect in the realm of the kaiser.

FIRST DISTRICT ELECTION IS OF THE GREATEST IMPORTANCE

It is significant that the people of the first congressional district are beginning to "sit up and take notice" of the special election that will be held on the 29th day of May to fill the vacancy caused by the untimely death of the late Hon. Cyrus Adams Sulloway. Interest in the contest is awakening the voters and the closing three weeks of the campaign promise to be more lively and interesting. Both of the two big parties have opened headquarters here and efforts are being made to get out a big vote on Tuesday, May 29th. Both candidates have taken to the "road" and are out greeting the voters. Next week the Republicans will open a vigorous speaking campaign throughout the district and the voices of many men of world-wide fame will be heard at the hustings. Hon. Sherman E. Burroughs, the candidate of the party, will take an active part in the "doings." He is a convincing speaker, a good mixer, and a man of attractive personality and he already is receiving assurances of support from all sections of the district, and the promise of many Democratic votes.

The voters are awakening to the importance of this election and hundreds of the independents throughout the district are rallying to the support of the Republican candidate. This is due to two important issues, one of which is of vital interest to the people of the district, as it directly affects the industrial and commercial welfare of every man, woman and child. With persistent and constant rumors that the European war will end soon, the voters of all classes and all parties are looking with apprehension on what is to take place to American industry and trade when conditions come normal. With the present laws which open our markets to the world, they know that there can come nothing but stagnation to the mills and factories, and idleness and suffering to the operatives and employees of the great manufacturing plants. It is being pointed out more forcibly with the closeness of the present hour, that

the single vote of this district might decide the fiscal policy of this country. Patrick H. Sullivan is a free trader, a rampant Democrat and an intense partisan. He would follow the dictates of his party, which controls its members under the caucus system, and his vote would not be other than in the interest of another section of the country, rather than his own, for it is a well known fact that the south is in the "saddle" in Washington. It is really a bread and butter issue that faces the voters of the first district. It has been demonstrated time and time again that in normal conditions of the world, New Hampshire industry and New Hampshire workingmen cannot enjoy prosperity and good business except under a policy that protects them from the products of cheap labor abroad. Just before the war started, even then, business was getting flat on the rocks of depression and the soup house; another fruit of Democracy was being established in the large business centers. It was freely estimated that a million American workmen were out of employment. New Hampshire workingmen and business men are thinking of these things and are playing for "Safety First" and they will rally to the support of Hon. Sherman E. Burroughs, the Republican candidate, who they know represents what is absolutely essential to the district for progress, prosperity and the best welfare of the people.

The clear, plain, and fearless stand of Mr. Burroughs on the question of national prohibition is attracting wide attention all over the district. The Republican candidate unhesitatingly says he favors this proposition and that he regards it in these trying times, as a most potent method of preparedness and a great step in the matter of assisting to reduce the high cost of living. The \$200,000,000 in grain that goes annually into the producing of liquor would be a great benefit to the people if it was manufactured instead into food products. Is the doctrine of Mr. Burroughs.

TO THE MEMORY OF ELLEN McKENNA
No tears about her grave be shed,
But sweet flowers be hung—
The greatest offering thou can make
To a heart that perished young.

This world her heart had never torn,
With reckless hopes or fears,
For blessed are they who pass away
In childhood's happy years.
Each day by day we watched her fade,
Slowly pass away—
And in our hearts we often prayed
That she might longer stay.

OLYMPIA THEATRE NOTES.

In addition to the government imposing a ten per cent tax on admission tickets to amusement places—moving picture theatres included—to be paid by the patron—it is the intention to levy a tax of one cent on every foot of film produced. This will add many millions more to the cost of pictures yearly. As evidence of this we will cite an example.
The average cost of an ordinary picture like "The Wolf Woman," "The Island of Desire," "Miss George Washington," etc., including the salaries of the players averages about \$25,000. A feature picture consists of five reels—about 5,000 feet. A picture like "Miss George Washington" would be in great demand and about 100 "prints" would be made from the original negative. Now take these 100 prints each containing 5,000 feet and you have 500,000 feet. With a tax of one cent per foot it will increase the cost of each picture \$5,000.

Owing to the great length of the bill on Friday and Saturday, the evening performances will start at 5:30 sharp. The program will consist of fifteen reels, including the first episode of "Mystery of the Double Cross"; and episode of "Patricia" with Mrs. Vernon Castle; Dorothy Dalton and Charles Ray in "Back of the Mask"; Villet Mercereau in "The Boy Glee"; "The Yellow Pawn" with Wallace Reid and Cleo Haggerty is the feature picture on the bill which will be 1,000 a bottle.

TO PROMOTE A FRIENDLY FEELING BETWEEN TWO COUNTRIES

Tokio, April 30. (Correspondence of the Associated Press)—The new society of Japanese and Americans at Tokyo has been completely organized under the name of "The American-Japanese Society" and holds its inaugural dinner on May 11. The purpose of the organization is to promote friendly relations between Japan and the United States and the diffusion among the Japanese people of a more accurate knowledge of the people of the United States, their aims, ideals, arts, science, industries and economic conditions. The post of honorary president will be held by the resident American Ambassador to Japan, Viscount Kentaro Kaneko was elected president. The honorary vice-presidents include Dr. Jidokichi Takamine of New York and Lindsay Russell, president of the Japan Society of New York. The executive committee is composed of twenty representative Japanese and Americans. Mr. Russell was present at the meeting which adopted the constitution and elected the officers and made an interesting speech concerning the workings of the New York society. He said that there was a fine opportunity for co-operation between the organizations of New York and Tokyo. May 11 was fixed as the date of the Tokyo banquet because it was the day set for a "made-in-Japan" banquet at the University of Missouri in the Kansas Newspaper Week.

COAST NAVAL RESERVES ARE INOCULATED AGAINST TYPHOID

Uncle Sam's precautionary measure against typhoid germ has been administered to the men from the coast reserve who are on the Topeka at Portsmouth. Three hundred and fifty men took the inoculation at 1:30 o'clock Monday afternoon, which was administered by navy surgeons from the Southey, and it was said that only one man was seriously affected by the results of the operation.

One man says that the whole business took but one hour, and that although many sore arms are being nursed by the boys, and they are to do only light duty for a while, it is expected that they will all be as spry as ever in the course of a few days.

Beginning yesterday the naval reserves are doing police work in the entire navy yard, replacing the marines who have been doing the work for some time, and the boys have all been thoroughly drilled in the use of the rifle and their equipment, so that they are fast becoming efficient in their work.

shown for the last time tonight. The picture is one of the better class of Paramount pictures and it has first of all the greatest essential for a good picture—a good story. Jane Caprice has the leading role in the William Fox production "A Modern Cinderella." This is Miss Caprice's anniversary picture and she was never seen to better advantage than in this picture of youth's eternal dream.

GOVERNMENT IS DROPPING FISH ALONG THE COAST

Billion Flounders, Cod and Lobsters Liberated.

The steamer Gannet of the fish commission has liberated over a billion of little flounders between Friendship, Maine and Wood Island in Portsmouth Harbor. The fish were hatched this spring at the government hatchery at Boothbay Harbor.

The commission has also distributed quite a lot of cod eggs this spring, although less than usual, the collection for some reason having been considerably below the normal. Over 12,000 "stirped" lobsters have also been liberated within a few days between Petit Menan and Whiteback Light. The Gannet is now engaged in collecting seed lobsters and in about a month will start out liberating lobster "fry," of which there will be an immense quantity at the hatchery in June.

RELIEF CORPS OBSERVES SILVER ANNIVERSARY

Storer Relief Corps, No. 6, celebrated its 25th anniversary on Wednesday evening in G. A. R. hall with a large attendance of members and guests and the event was one filled with pleasant associations and recollections and an evening long to be recalled by all present. Special guests included several state officers, past and present, members of Storer Post, G. A. R., and Captain Thomas Ashton Harris Camp, S. of V.

Supper was served at 7 o'clock, previous to which all standing "The Star Spangled Banner" was sung by Miss Mary Shaw, with all joining in the chorus, and dinner blessing was invoked by Mrs. Nellie M. Fletcher.

Four long tables were invitingly set, each table being graced with a bouquet of plums and the napkins were made into the form of little tents each surmounted with a small American flag, these latter being the gift of Past President Bertha Smart, who was unable to be present owing to illness. The officers and guests of honor were given seats at the table at the head of the hall. The menu included the following: Baked beans, cold ham, fruit salad, vegetable salad, pickles, rolls, fancy pies, assorted cake, coffee, ice cream.

After the supper a fine order of exercises was given, president Nellie V. Moody giving the address of welcome as follows:

"Department President and associate officers, members of Storer Post No. 1, Sons of Veterans and invited guests, officers and members of Storer Relief Corps—We are indeed glad to welcome you here this evening to this our 25th anniversary. It seems but a short time since the institution of this corps, yet, as a review of the work is given tonight and the thought of so many that have passed to the great beyond, we fully realize that we have reached the quarter century mark. In all this time we have sought to work for what the order represents, and

have tried to be true and loyal to our brave G. A. R. boys who fought for the preservation of our country, and as we have in the past, so we do now in this time of great need, stand ready to whatever may be required of us. We pledge anew our allegiance to God and our country—One country, one language and one flag. Again we bid you a hearty welcome in the name of friendship, charity and loyalty. I thank you."

Mrs. Sarah Burnham read a brief sketch of the institution of the order as follows:

"Storer Relief Corps, No. 6, was re-organized May 24, 1892, by installing Officer Mrs. F. Lizzie Locke of Seabrook assisted by Past Department President, Mrs. Cella Foster of Milford, with 72 charter members. Officers were installed in the evening by the Past Department President, Cella Foster, installing officer; Dept. S. V. President, Mrs. Fannie Minot of Concord as conductor, installing Mrs. Mattie Nelson as president. Our guests were Dept. President, Mrs. Augusta Bennett of Manchester; Dept. Secretary, Mrs. Laura Kilder of Manchester, Dept. Ins. and Ins. Mrs. Grace Whyte of Exeter; Storer Post No. 1, and Sons of Veterans."

Then followed brief sketches of each year written by the past presidents, or by some member, if it so happened that that officer had passed to the higher order. The years and presidents were given in the following order interspersed with musical selections: 1892-3-4—Mrs. Sarah Burnham. 1895-6-7—Mrs. Emma Wendell. Piano solo—Mrs. Jennie Philbrook of Dorchester, who was the corps first pianist, and who played an old time favorite selection, "Old Pic and Drum."

1898—Miss Fannie Deverson. 1899—Mrs. Mary Paul (deceased). 1900—Mrs. Annie Freeman (deceased).

1901—Mrs. Ida Crech. 1902—Mrs. Nellie Twombly. 1903—Mrs. Nellie Fletcher. Vocal solo—"At Dawning."

"The Sunshine of Your Smile." Miss Mary Shaw, Miss Barbara Flanagan, accompanist.

1904—Mrs. Bertha Smart. 1905—Mrs. Minnie Whittier. 1906—Miss Edith M. Paul. 1907—Miss Jennie Dow. 1908—Mrs. Lizzie Fernald. 1909—Mrs. Bertha Smart. 1910—Mrs. Mabel Smith. Piano solo—Miss Pauline Taylor.

1911—Mrs. Lilla Huntress. 1912—Mrs. Gritha Carl. 1913—Mrs. Cassie Durgin. 1914—Mrs. Blanche Blake. 1915-16—Mrs. Marion Green. Piano solo—Miss Dorothy Doolittle.

Remarks were then made by the following visitors who highly complimented the order on the reports of the excellent work done both socially and financially during the twenty-five years:

Department President, Mrs. Nellie W. C. White of Deerfield; Junior Vice Dept. President, Mrs. Annie Kimball of Rochester and Dept. Inspector Mrs. Grace Hayden of Dover. Letters of congratulation were read by Miss Edith Paul, from Past National President Fannie E. Minot of Concord, Past Dept. President in 1892, Augusta S. Bennett of Manchester; Dept. Senior Vice President, Cora J. Hoyt of Nashua; Patriotic Instructor, Lillian W. Rowe of Exeter; and the first recorded visitor, not official, Mrs. Della Bancroft of Reading.

Piano solo—Miss Dorothy Doolittle.

Remarks were also made by Commander Meshae M. Bell of Storer Post; Captain Edward B. Adams of Sons of Veterans, Company J. S. Doolittle, and Past Dept. Commander of J. H. Reynolds Camp, S. of V., of Reading, Mass., Martin De Ronde.

All then pledged allegiance to the flag and the exercises concluded with singing one verse of America.

The anniversary celebration was in charge of the Past Presidents, Mrs. Sarah Burnham, chairman, and it was due to their untiring efforts, aided by the present president and her officers, that the whole affair was such a big success. The present officers are:

President—Mrs. Nellie V. Moody.

Senior Vice President—Elizabeth Ballou.

Junior Vice—Mary E. Woodward.

Secretary—Edith M. Paul.

Treasurer—Miranda N. Lang.

Conductor—Maud G. Plasted.

GERMAN SUBMARINE WARFARE FALLS OFF FOR PAST WEEK

(By Associated Press)

As had been previously suggested, the number of sinkings of British merchantships by German submarines for the past week was considerably lower than for the previous week and for the week ending Sunday, May 6, the official toll, as reported by the British Admiralty, and made public in the official statement on Wednesday night was twenty-four vessels of more than 1,000 tons and twenty-two vessels of less tonnage. As compared with the week ending April 29—thirty-eight ships of over 1,000 tons and thirteen of the lesser tonnage—this is a decided decrease. Notwithstanding this statement, which is apparently admitted by the German naval authorities, the German government officials are still optimistic that the U-boat warfare is the main factor in their fighting against Great Britain and her allies. The naval budget for the Reichstag calls for \$1,100,000 for the carrying on of this campaign and the naval committee is assured that the German navy has at present sufficient men, submarines and supplies, and equipment for the continuation of the campaign for some time.

Fresnoy the Key to German Defenses

The sanguinary battle between the British and German forces for the possession of the little village of Fresnoy, which was taken on Tuesday after five days' fighting by the Germans, is still being waged without

abatement, according to the official statements from the two war offices. The Germans are battling desperately to hold the point as it is the key to the situation, and its capture would give the British almost undisputed command of the line of defense, leaving open the way to Lens and its valuable coal fields and a clear way into Cambrai. The exact situation in the village, which was captured by the Germans on Tuesday, is obscure, none of the official communications throwing any light on the situation.

Wednesday witnessed the return of unfavorable weather conditions on the battle front and with the exception of the activity at Fresnoy the battle was without action other than severe artillery duels.

On the part of the line held by the French artillery deals comprised the greater degree of fighting on Wednesday although northwest of Rheims the French infantry made an advance attack which netted that a great gain over a front of 100 yards, and saw the return to the rear of more than 100 Germans as prisoners. The fighting on the other fronts is reported as "sporadic."

Although the battle of Arras has been described as the greatest in the war the official figures issued by the British war office show from 50 per cent to 75 per cent lower casualties than were reported in the battle of Arras, it still being waged without

PROVISIONS OF WAR REVENUE BILL REPORTED WEDNESDAY

Washington, May 9.—The man who stays home and feeds his family and one other will be doing as much for his country as the man who goes to the front to fight, and he will not have any "loose" time provided the war revenue bill, which was reported to the House today by the House Ways and Means Committee, is passed, which it will be. The provisions, as reported in the bill, follow:

1.—Taxes for the year ending Dec. 31, 1916, have been increased exactly one-third. These taxes are due in June.

2.—Exemption limits have been reduced to \$100 for single men and \$200 for married men.

3.—The normal tax on new classes of incomes to be taxed, those between \$100 and \$300 for single men and between \$200 and \$500 for married men, has been fixed at 2 per cent.

4.—Normal taxes on all incomes formerly taxed those above \$500 for single men and \$1000 for married men, have been increased from 2 to 1 per cent.

5.—The increased surtaxes are as follows:

Income from \$200 to \$750, 1 per cent.

Income from \$750 to \$10,000, 2 per cent.

Income from \$10,000 to \$12,500, 3 per cent.

Income from \$12,500 to \$15,000, 4 per cent.

Income from \$15,000 to \$20,000, 5 per cent.

Income from \$20,000 to \$40,000, 6 per cent.

Income from \$40,000 to \$50,000, 8 per cent.

Income from \$50,000 to \$60,000, 11 per cent.

Income from \$60,000 to \$100,000, 14 per cent.

Income from \$100,000 to \$150,000, 17 per cent.

Income from \$150,000 to \$200,000, 20 per cent.

Income from \$200,000 to \$250,000, 24 per cent.

Income from \$250,000 to \$300,000, 27 per cent.

Income from \$300,000 to \$500,000, 30 per cent.

Income from \$500,000 and up, 33 per cent.

As the War Revenue bill now stands it contains the following taxes:

Income, increases ranging from 2 to 25 per cent.

Tariff, increases of 10 per cent on all articles now taxed and new duties of the same amount on all other articles.

Consumption incomes, increased from 2 to 1 per cent.

Libertine tax, decreased about one-third.

MODERN NIGHT LUNCH CART ON MARKET SQUARE

OLD WAGON REPLACED BY LATEST WORD IN "QUICK LUNCH EMPORIUM" BY CLARENCE ALLEN.

The growth in the business of the lunch carts is illustrated in the better and more costly designed carts that are of late appearing in the many cities in New England. Portsmouth is to be numbered now among the towns which can boast of one of the best in this branch of "eating houses" the property of Clarence B. Allen, who has conducted one of the lunch carts on Market square for several years.

The new cart made its appearance on the square last evening for the first time and it is the last word in lunch carts as they should be. The cart is designed to accommodate a large number of patrons who may be seated comfortably at a long counter running the length of the cart and there is ample room for the proprietor and his assistants to ply service to them. The cart is several feet wider than the one which it replaces and is easy of access, having a low step on the level with the sidewalk. It is a distinct improvement over the old cart both in appearance and point of accommodation and it caused considerable favorable comment on its initial appearance. The cart was purchased several weeks ago by Mr. Allen from a firm making these carts in New York state and for the past few weeks he has been engaged in making improvements and additions to the interior appointments.

As the War Revenue bill now stands it contains the following taxes:

Income, increases ranging from 2 to 25 per cent.

Tariff, increases of 10 per cent on all articles now taxed and new duties of the same amount on all other articles.

Consumption incomes, increased from 2 to 1 per cent.

Libertine tax, decreased about one-third.

SMALL SHIP POLICY SAID TO BE WRONG

BRITISH EXPERTS POINT OUT HOW IT THREATENS CHANCES OF VICTORY.

Manchester, Miss., May 9.—A committee of shipping experts here has adopted a report against the building of small ships in preference to big ones to offset the submarine danger. The report says:

"The policy of small ship construction can only have a most disastrous effect on the nation, the navy-power required by the army and our chances of victory. The Germans claim to be sinking 2,000,000 tons a year, and hope to sink still more. Allowing losses by mines and natural causes to balance an exaggeration of German claims, and assuming that we build one-half the tonnage (about 2-1/2 times our pre-war output) and other countries the balance (over five times the pre-war output), we have increased last year's output by about 4,000,000 tons, equivalent to 1,000,000 tons of cargo capacity per year.

"Comparing ships of 2000 tons and 10,000 tons displacement, carrying 650 and 3675 tons of cargo, respectively, and taking the North Atlantic passage as an basis, we should require to build each year 2460 of the smaller ships, but only 135 of the larger.

"The smaller ships would cost 111,000,000 pounds and the larger only 10,000,000 pounds. The small ships would use 7,500,000 tons of steel and 575,000 tons of timber, and would consume 6,750,000 tons of coal on the outward voyage per year. The larger ships would absorb 1,000,000 tons of steel and 382,000 tons of timber, and consume only 1,500,000 tons of coal.

"The number of men employed in building the ships, including making and handling steel and other materials would be 635,000 for the smaller ships and 285,000 for the larger. The cost consumed would account for 45,000 men for the small ships, as against 10,000 for the large. Thus the larger ships would release about 350,000 persons for other national service. Moreover, the larger ships would require 60,000 fewer mariners.

"Again, the percentage of loss both in number of ships, and in cargo carrying capacity will be greater with small ships than with large, and the former will produce greater congestion in ports.

"The policy of the small ships, therefore, is all wrong. All our ship-building energy should be directed towards building the largest ships on various yards can efficiently handle."

GREAT WELCOME GIVEN FRENCH MARSHAL AND M. VIVIANI ON THEIR ARRIVAL YESTERDAY AFTERNOON.

(By Associated Press)

Washington, May 9.—The Federal Shipping Board announced this afternoon that it had purchased for the United States Government seven Austrian merchant ships now held in American ports and the property of American shipping men, totaling 52,621 tons, for \$5,773,000, about one-half of the value of the vessels at the prevailing prices. The owners of the ships, who had purchased them from the Austrian owners some months ago, stated that they had willingly passed up a profit to the government, selling the vessels at practically the same price they had paid for them. The government will undertake the repairs on the vessels and they should be ready for service of transportation food or supplies within a very few months.

The ships included in the purchase were the Dora, Ida, at New York; Enry, at Boston; Anna, Clara, Teresa, at New Orleans; and Lela, at Pensacola. The ships were purchased for the government from A. T. Hord and George A. Garden, two New York shipping men. The purchase was completed today.

BRAZIL CONTROLS GERMAN COLONIES

Rio de Janeiro, May 9.—Stories to the effect that German colonies in the three southernmost states of Brazil are sufficiently numerous and organized to disturb terms at the bayonet's point should the occasion ever arise were made to appear ridiculous by the publication today of statistics showing that the total number of Germans immigrating to Brazil since 1888 is less than 150,000.

Up to the time of the fall of the empire in 1889, only 75,337 Germans had entered Brazilian ports. From 1889 to 1915 this number was increased by 66,102, making a total of 131,439. The census returns give the descendants of these Germans as Brazilians, may be "hyphenated" but Brazilians.

GERMANY READY TO MAKE NEW PEACE TERMS

(By Associated Press)

Copenhagen, May 9.—A special dispatch from Berlin says that Dr. von Bethmann-Hollweg, the German Imperial Chancellor will answer the peace interpellations in the Reichstag on Monday.

Amsterdam, May 9.—The Tjé's Berlin correspondent in a special dispatch from Berlin this evening states that von Bethmann-Hollweg's expected answer to the peace interpellations on Monday may not be necessary as it is unofficially announced that the Imperial government will make known its new peace terms within a few days.

London, May 9.—A dispatch from the Exchange Telegraph correspondent received here conforms to news dispatch from Amsterdam that the German government is prepared to announce shortly a new set of terms of which the Imperial government will accept peace.

At the pier they were met by a reception committee and their passage from the Battery to City Hall, through the cauldron of Broadway was choked by throngs of wildly cheering people who assembled to do honor to the visitors. At City Hall they were formally welcomed by Mayor John W. Mitchell and Mr. Choate.

LOW FACE VALUE OF BONDS MADE BY MR. M'ADOO

Washington, May 9.—The \$2,000,000, 000 issue of "Liberty Loan" bonds, Secretary of the Treasury McAdoo announced today, will be in denominations of \$50.00 to \$100,000, maturing in thirty years and may be redeemed by the United States in fifteen years, subject to payment in four installments. The secretary announced that the bonds will permit of conversion into any other subsequent issue of United States bonds bearing a higher rate of interest at any time.

This arrangement will permit of the purchase of one of the "Liberty Loan" bonds by nearly every person in the country and at the rate they have been subscribed for up to the present there is every indication that the issue will be taken up almost immediately after the bonds are ready to be placed. The greatest amount of scope in paying for the loans in installments to the several banks in the country has been allowed and the announcement that they will be issued in denominations as low as \$50, is received as a surprise by many as it was previously announced in some circles that \$100 would be the lowest denomination of bonds in this issue.

EXETER TEAMS GIVEN SETBACK

Exeter, N. H., May 9.—With the Harvard Intercollegiate meet cancelled Exeter has only one meet in which to try out the men this season, that being with the M. L. T. freshmen at Exeter on May 19.

Trainer Combs intends to put the season with a handicap meet on May 26. The track team this year would probably have been stronger than for many years, although F. H. Spear Jr., a member of the winning relay team at the Penn. carnival and Douglas L. Crane, a shot putter, have both enlisted.

The baseball team is playing Colby academy this afternoon, although many of the letter men are daily expecting a call from the Plattsburg training camp.

U. S. TO BUY VESSELS AND BUILD ALSO

PRESIDENT SETTLES DETAILS REGARDING BILLION-DOLLAR SHIPPING FUND.

Washington, May 9.—The billion dollar Uncle Sam ship fund at once for ships to combat the submarine menace will go for purchase of second-hand vessels and construction of new ones.

This was decided on at a two hours conference between the President, 30 members of both Houses of Congress and officials of the government shipbuilding.

The Congress delegation represented all factions of both parties. All were agreed after what the President told them, that the United States should have ships quickly and in enormous tonnage.

The plan tentatively decided on is to attach the appropriation, of \$500,000,000 of it, on the urgent deficiency bill, making this sum available at once. The remainder will be provided when wanted. Wilson was told by leaders of both parties.

The shipping board is understood to have made a complete survey of all ships for sale in the United States. If owners of these ships show any hesitancy in selling means will be found to bring such owners to terms. The means may be through the bill now pending, which would give the President power to commandeer all shipping.

To insure prompt and efficient handling of all supplies in carrying out the government shipbuilding program, the shipping board has created the office of director of traffic of the board and the emergency fleet corporation.

New York, May 9.—New York surrendered unconditionally to Joseph Jacques Conser Joffre, Marshal of France, this afternoon at 3.55. The world's largest city not only capitulated to the hero of the Marne but accorded him a triumphal entry to the city. Marshal Joffre, and Rene Viviani, vice premier of France, and the other members of the French War Mission were greeted by more than 1,000,000 people who accompanied them or cheered them at every step from the Battery to City Hall. The reception of the distinguished visitors was the greatest ever accorded a visiting delegation in the history of the city. It was an historic event and was conducted in a historic way.

The members of the French mission brought their first glimpse of Barthold's Statue of Liberty, the gift to the people of America by the people of France, through a haze as they were coming across the East river in a Police Patrol boat. Viviani and Joffre stood together by the rail. M. Viviani with bowed head and in silence, the Marshal at the salute. A few moments later the city's ship line struck their vision.

At the pier they were met by a reception committee and their passage from the Battery to City Hall, through the cauldron of Broadway was choked by throngs of wildly cheering people who assembled to do honor to the visitors. At City Hall they were formally welcomed by Mayor John W. Mitchell and Mr. Choate.

ELKS TO HOLD
CONVENTION

The executive officers of the Order of Elks have issued an official notice that the grand lodge session scheduled to take place in Boston in July, will be held despite the fact that the country is at war with Germany.

The grand lodge reports that if the Boston meetings were a detriment at this time to the nation at large, whatever good they might do to the Order of Elks, the convention should not be held, as the interests of the country come before the order. The Elks will hold their annual gathering, its officers declare, not as a summer pleasure but as a real duty.

BRAKEMAN IS
BADLY INJURED

R. J. M. Littlefield of North Berwick, aged 30, a brakeman on the R. & M. R. R., was badly injured by being thrown from a car in the Reading yard at Woburn, Mass. He struck a platform with such force that his back bone was fractured. He was taken to the Massachusetts General hospital.

Littlefield, it appeared, while leaning out between cars to adjust a coupling, was struck by the lever of a switch.

WILL APPOINT NO
MORE MEN WORKING
ON THE NAVY YARD

Board of Engineers Refuse
Certificates to Two New
Men in Fire Dept.

The recent appointment of substitute firemen to fill vacancies on Ladder 1 and Engine 2, made by the respective companies will not be confirmed by the board of engineers and the companies will be obliged to make other selections.

The reason given for the board not granting the necessary certificate is that the men are employed outside the city on the navy yard. The board finds that there are already too many call men in the department employed at the government reservation and that it would not be good policy to add to that

number. In the future the board finds it necessary to confirm only such appointments of regular men who are located and working in the city.

POLICE COURT

For over an hour on Wednesday afternoon the police court was busy with another case of Sunday liquor selling in which Carmelo Rizzo of Russell street was the defendant. Witnesses who were in his place on Sunday last today testified that they saw him in the speak-easy, but could not remember whether or not he was the man who passed them the brew. Rizzo said that he was not selling any of his stock on hand, that he had six boarders and that the boarders owned and paid for the third pintment in the cold storage.

A friend of Rizzo's from Rye figured in the case. He said he was addressed by a man in the depot who wanted a little foam and he told him he would give it to him but that there was no money consideration in the deal. The two put away a couple of cool bottles together and that the stranger did not show even a nickel.

The court, on the testimony of previous witnesses at a former hearing and the general evidence apparent in the case, ordered a fine of \$25 and costs of \$6.13, with a suspended jail sentence of 30 days. Attorney Mitchell for Rizzo appealed and after the lawyer left the room Rizzo decided to hand over \$31.13 to the clerk of court rather than fight it again in the supreme court.
